Share Your Feedback on McCain Open Space Designs

Dear Silver Shekel Property Owners,

We received the attached email with information about the design concepts for the McCain property across Hwy 9. The concepts are shown in the presentation [here](#). To provide additional input about this important property, you can provide feedback on their ideas by completing their Phase 2 Community Feedback Survey near the top of the webpage.

Sincerely,

Board of Directors,
Silver Shekel Owners Association

board@silvershekel.org

+++++

Good Afternoon,

Thank you to everyone who joined us at last week's community meeting on the McCain Open Space draft design concepts.

If you weren't able to attend—or would like to share additional input—you can still review the presentation and complete the community survey through our [Project StoryMap/webpage](#). Spanish materials are available.

Attached is a flyer with a link and QR code to the StoryMap—please feel free to share it with others who may be interested. Your feedback will help shape the future of McCain Open Space.

If you have any questions, please don't hesitate to reach out to me, Duke, or Alex.

Kindly,
Laura Hickey
Outreach & Engagement Consultant supporting Breckenridge Open Space & Trails
